

Lesson 13 Review & Fix-It

E L A + M A T H • W O R D S T U D Y

Mr. H Math • Day 28

WRITE YOUR NAME — one letter per box, straight and neat

--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--

Date: _____

Score: ____ / 10

Quiz day. Use this sheet **before** the quiz to warm up and **after** the quiz to fix errors. Every item matches a quiz skill. A correction counts only if you show the **multiplier**.

WARM-UP • 3 : 4 FOUR WAYS

5 min

Equal groups (draw 3 groups):

--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--

blue	3	6		7½
yellow	4		12	

QUIZ CHECKLIST

- ☐ Keep the quantities in the problem's order.
- ☐ Multiplier = new ÷ original (same quantity).
- ☐ Multiply BOTH — never add.
- ☐ Not whole? Go through a smaller ratio.
- ☐ Check a second way.
- ☐ Label units.

SECTION A • FIX-IT PRACTICE

Skill	Problem	Multiplier	Answer
Ratio table	5 notebooks cost \$15. Cost of 8 notebooks?		
Double number line	4 laps in 6 minutes. Minutes for 10 laps?		
Mixed-number multiplier	6 cups flour for 4 loaves. Flour for 10 loaves?		
Scale down	36 red : 24 blue. Red for 6 blue?		
Graph	Which point is on the line for 2 : 5? (5, 8) (8, 20) (3, 6) (7, 10)		

SECTION B • MY QUIZ CORRECTION

Quiz problem # _____ My first answer: _____ The error I made: _____

My fix, with the multiplier shown:

--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--

REFLECTION

The model I trust most is _____ because _____.

My confidence (circle): 1 2 3 4

LESSON 14 PREVIEW

A fruit bowl has 4 apples and 6 oranges.

Apples : oranges = _____ (part-to-part)

Apples : all fruit = _____ (part-to-whole)

REFINE • SUMMARY — Equivalent ratios come from **multiplying or dividing both quantities by the same number**. Tables, double number lines, and graphs are three views of the same idea. Show the multiplier on every correction.

★ Find the multiplier, keep the order, check it a second way! ★
